FOR IMMEDIATE RELEASE

GEAR WEST SUPERTOUR / MAYOR'S CHALLENGE RECAP

This past weekend the Gear West Race Service Team led by Brandan Ostroot provided some **winning** service! The team was on site each day at 5:30 am testing a multitude of wax options.

Parafins Tested: Swix LF4, Start LF08, Swix HF80, Swix HF4, HF5BW, Toko HF Blue with cold powder, and Rex Olympico Green

Pure Fluoros Tested: Swix FC7, Swix SuperCera, SFR92, Toko Jetstream Blue, Start N7, Start N3 Liquid, Start World Cup service wax PF 750, Rex TK820, Rex TK72, Holmenkol Mid 08, and Vauhti Black Fox

Results: Our fastest glide solutions for the weekend included Swix HF5BW, Start HF80, Toko Cold Powder additive and Start World Cup service wax PF 750. We found the Start PF 750 to be particularly noteworthy. Special hardeners added to this wax allow it to glide well in cold conditions. This World Cup service wax is exclusively available at Gear West for the time being, call for more information.

UPCOMING SERVICE - GREEN ACRES SUPERTOUR 1/28 -1/29 2012

Due to the overwhelming success at Theodore Wirth we are offering race wax service for this upcoming weekend of racing!
