

Brand new from Fischer ONLY at Gear West

It's widely known in the Nordic world that winter bodies are made in the summer. Let the brand new Fischer RC7 series take you towards your goals this summer, only at Gear West.

The smooth-running RC7 Skate NIS delivers peerless simulation while you rack up the miles chasing the next wave this winter. Its stiff and light aluminum frame allows you to stop thinking about your feet and start focusing on technique. The pre-mounted NIS plate delivers premium stability so you can skate ambitiously and serenely with minimal wobble and optimal precision. The RC7 Skate stakes its claim as the ideal choice for the skier looking to reach the next level this season.

If you value stability and safety when browsing for classic rollerskis, look no further. Wide rubber wheels and a remarkably low balance point encourage full weight transfer so your technique collects no rust over the summer. Its integrated rear-wheel ratchet and lightweight aluminum frame resists tilt and keeps you on track toward not only your training goals, but also on the road thanks to its wide axle spacing. Stay safe and stay on point with the RC7 Classic NIS.

\$315.00 with binding or \$249.00 without binding - Team and High School pricing available
