

Pre-Season Physical
Theodore Wirth, December 12, 2010
8.7 K Freestyle

An excellent field of thirty intrepid skiers braved the cold on a beautiful sunny day to compete in this race the proceeds of which benefit the research fund for the HCMC Emergency Department. Many of the skiers were kind enough to shovel parking spots for themselves and others in the post-storm snow control effort and the groomers at Theodore Wirth get an A+ for an early Sunday morning start to groom an excellent freestyle track, providing an amazingly enjoyable and firm course for the racers under the rare condition of “too much snow”. Bjorn Batdorf and Johanna Winters were the winners of the men’s and women’s races, and Torsten Brinkema won the kids division with an outstanding 46:10 time.
